Mayor Chas. E. McGrath
Accepts New Library On
Behalf Of Citizens

Shining in all its brilliance from the corner of North and Mercer streets, New Castle's new library home attracted close to 3,000 persons Tuesday evening, for the public dedication program and official opening of the new building.

Long before the scheduled time for the opening, the building was crowded with interested citizens, who wandered about inspecting every nook and corner at their leisure.

Program Opens
Promptly at 7:30 o'clock, Rev. J. J. McElvaine was introduced and he led the audience in a short prayer.

Previous plans were to have Rev. Philip C. Pearson take part in the program, but due to illness, he was unable to fill this engagement.

Attorney Wylie McCaslin, president of the board of trustees, served as chairman for the program, introducing the various speakers.

Mr. McCaslin gave the opening talk, presenting the library to the citizens of the City of New Castle. He said among other things that the citizens were now getting what for a long time has been needed here.

On behalf of the citizens and the city, Mayor Charles E. McGrath, made a brief speech of acceptance. Mayor McGrath termed books as "man's closest friend". He stated, "I believe that I am speaking for the majority of New Castle citizens when I say that this new building is deeply appreciated, and that sincere thanks are felt for members of the board and all others instrumental in the obtaining of such a fine structure."

A beautiful American flag, the gift of the D. A. R., was presented (Continued On Page Two)

PA NEW OBSERVES

Saw a queer contraption yesterday afternoon on the West Side, on Robinson street. Two boys had a large clothes trunk fastened on top of a coaster wagon. On inquiry we found that the boys were hauling ashes and rubbish in the trunk, and that failing to get hold of a suitable box, the trunk had to take its place. On second thought, the trunk would be more sanitary and satisfactory, as the lid could be closed in transit.

Big City Political Machines Slipping

By GEORGE R. HOLMES

WASHINGTON, April 13.—The big city machines which from time to time have played a prominent role in national politics seem to be slipping.

Tammany Hall has been thoroughly licked in New York, and is now in a state of feeble ineffectiveness.

Today, in Illinois, Gov. Henry D. Horner appeared to have administered an impressive drubbing to the Kelly-Nash machine that has dominated Chicago for the past five

years. It is the governor, not Mayor Ed Kelly and National Committeeman Pat Nash, who stands out as the dominant figure in Illinois democracy. He defeated the machine's candidate with his own and his victory made quite an impression on the Democratic big-wigs in Washington.

Nationally, there was little of significance in the bitterly-fought Illinois primary. It was a family row between Illinois Democrats, and both President Roosevelt and National Chairman Jim Farley kept hands off, notwithstanding that both factions brought their appeals directly to the White House.

For the fourth consecutive time, Dr. Clyde C. Dr. Green was unopposed for re-election and received eight of the nine board votes, A. C. Hyde not voting.

The election took but a few minutes. Under new provisions of the school code the board must form itself into a convention when a superintendent is to be elected. Secretary John E. Bechtel read the convention call and Daniel B. Woolcock was named president of the convention (Continued On Page Two)

Wins Control Of State Democratic Party In Illinois
Primary Battle

CHICAGO MACHINE
BELIEVED ROUTED

(International News Service)
CHICAGO, April 13.—Gov. Henry Horner today won a sweeping victory in the struggle for control of the state Democratic party when his candidate for U. S. senator, Scott W. Lucas, took the lead from U. S. District Attorney Michael L. Igoe, supported by the Chicago city hall machine.

Returns from 6,551 of the state's 8,286 precincts gave Lucas 602,947 votes against 602,377 for Igoe.

The result of the primary was considered a stunning blow to the organization headed by Mayor Edward Kelly of Chicago and National Committeeman Patrick Nash, long the dominant power in Illinois Democracy.

Jarecki Wins.
As returns rolled in today it was evident that County Judge Edmund K. Jarecki, ousted by the regular party group and backed by Horner and State's Attorney Thomas Courtney, had been re-nominated by an estimated 40,000 plurality and that Scott W. Lucas of Havana would be the Democratic nominee for U. S. senator.

While U. S. District Attorney Michael L. Igoe, supported by Kelly and Nash, piled up a monster lead in Cook county, Lucas was running tremendously downstate and his campaign managers claimed he would win by at least 40,000 votes.

While Igoe led Lucas in Cook county with 495,642 votes against (Continued On Page Two)

Restore Profits Tax, Is Demand Of President

Unprecedented Move Is
Made In Situation By
President Roosevelt

SENDS LETTER TO CONFEREES' SESSION

Never Before Has Such Ac-
tion Been Taken On Tax
Bill In Conference

(BULLETIN)
(International News Service)

WASHINGTON, April 13.—In an unprecedented move, President Roosevelt today demanded that senate and house conferees on the tax revision bill retain the principle of the undistributed profits tax.

He also urged retention of progressive rates of taxation on capital gains instead of a flat rate.

Mr. Roosevelt in a letter placed before the conferees at their first meeting in effect assailed the bill as passed by the senate.

Will Fight For Senate Bill
Senator Harrison (D) of Mississippi, chairman of the senate finance committee, which scrapped New Deal theories of taxation, immediately took issue with Mr. Roosevelt's stand.

He announced that the senate bill, even though it conflicts directly with the president's stand.

The action of the president in addressing a lengthy letter to Senator Harrison (D) of North Carolina, of the ways and means committee, surprised members.

Never before, it was said, has such action been taken on a tax bill while in conference for the purpose of harmonizing differences between senate and house.

The two vital differences between senate and house bills are:
1. House retained principle of 1936 undistributed profits tax, although sharply modified. Senate bill scrapped it entirely. House bill provided tax rates of 18 to 20 percent on corporations earning over \$25,000, varying according to distribution. Senate bill scrapped this theory, imposing flat income tax of 18 percent.

2. House bill modified present drastic capital gains rates, providing effective rates ranging from 16 to 30 percent. Senate bill imposed flat tax of 15 percent.

Mr. Roosevelt, in his letter, declared that he recommended the 1936 undistributed profits tax as a fair system of taxing business.

Governor Earle Will Head State Delegation At Fete Here Tonight

New Castle celebrates an outstanding safety record tonight in the Cathedral when the 3 1/2 year "no lost time accident" record of the Lawrence county highway department will be feted with a dinner and program. Attending the dinner will be district and state officials of the highway department and a number of state officials.

Governor George H. Earle has promised to be present and with him Attorney Charles Alvin Jones of Pittsburgh, candidate for the Democratic nomination for governor, Secretary of the Commonwealth David Lawrence, State Senator Leo C. Mundy, a candidate for the Democratic nomination for lieutenant governor, District Engineer Joseph E. Burke and a host of others.

National Record
Forty two months ago the local highway department began its unusual record. That was shortly before John B. Shaw took hold as county superintendent. Since then there has not been one man lose an hour due to accident and by now the record overshadows every other highway department in the entire United States.

COLUMBUS, O., April 13.—Blond Anna Marie Hahn's appeal from her death sentence was rejected today by the state supreme court which set May 4 as the date for her to die in the electric chair for murder.

Now, barring a possible appeal to the U. S. Supreme Court on constitutional grounds, the 31-year-old German immigrant convicted of the poison murder of Jacob Wagner, 79, a Cincinnati gardener, has only one hope of avoiding the chair—an appeal to Gov. Martin L. Davey for executive clemency.

WASHINGTON, April 13.—President Roosevelt today called another conference of congressional leaders to put the new deal's \$2,750,000,000 recovery program in final form for submission to congress and the radio public tomorrow.

At the conference, set for 5 p. m. EST at the White House, the president is expected to plan the course of the pump-priming legislation in an effort to insure prompt and favorable action by congress.

In Conference
Among those to attend are senate majority leader Barkley (D) Kentucky, Senator Glass (D) Virginia, chairman of the senate appropriations committee; Senator Byrnes (D) South Carolina, an administration leader; house majority leader Rayburn (D) Texas, Rep. Taylor (D) Colorado, chairman of the house appropriations committee; and Rep. Woodrum (D) Virginia, and Cannon (D) Missouri, Rankin, Embury of the house committee.

Meanwhile, deepest official silence continued to surround the nature of the president's proposals on "federal relief and the economic situation in general."

"Suggest" Pump-Priming
It appeared, however, that Mr. Roosevelt intended to suggest a \$1,500,000,000 "pump-priming" program in addition to the \$1,250,000,000 already authorized.

Picket Line Adds To Circus

Strike Occurs As Circus Opens

Unique Performance Is Given In Madison Square Garden Last Night

SHOW MUST GO ON DECREE IS UPHELD

By WALTER KIERNAN
International News Service Staff

NEW YORK, April 13.—Well, there never was a circus performance like it. There weren't any elephants or horses, there wasn't any popcorn or soda pop. There were a lot of the familiar circus trappings missing but as added attraction there was a picket line of striking employees.

And disjunct as was the performance, it was held which was more than anybody could predict about today's scheduled performance.

Last night with Madison Square Garden filled and the opening "spec" about to begin, the strike of animal handlers, roustabouts, wardrobe workers and other non-performing employees was called.

Show Goes On

Only two courses were open to John Ringling North, general manager of the Ringling-Barnum and Bailey circus. He could call off the performance or he could go ahead in the face of technical difficulties.

"The show must go on" said North and it went on—it went on with North himself, singing and leading at aerial rigging, with clowns and midgets and strong men pushing wagons around and with the customers, for once in their lives, sitting through a performance during which no one knocked their hats off while spearing a bag of peanuts in midair.

The band tooted bravely with every man in his place but it was one of the few normal units of the show.

Some acts were cancelled due to absence of handlers and others were contrived on the spur of the moment to stretch the show to normal length. The opening parade ran under ten minutes because most of the animals were still downstairs with no one to handle them.

Salary Misunderstanding

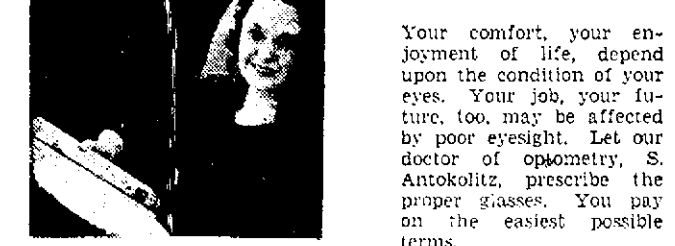

And when it was all over, North announced that the show would go on today even if he had to hire new help but there was some doubt about it. All the performers are members of the American Federation of Labor and there was indication that they too might go out on strike unless the management patched up its difficulties with the non-performing workers.

The strike resulted from a disagreement over wages to be paid while the circus is in the garden. There were two contracts in existence, one covering wages in winter quarters and the other "under canvas." The workers claim that the Garden performance is for contract interpretation purposes, "under canvas" while the management disagreed and would pay on a scale above the winter scale but below the "under canvas" scale.

Correct this sentence: "I spent the day cleaning the house," said the wife, "and Bill raved all evening about how nice it looked."

ready informally agreed upon to run direct relief for the seven months beginning July 1.

Authoritative sources said that a special White House meeting last night of five cabinet officers, RFC chairman Jesse H. Jones and WPA administrator Harry L. Hopkins were in "virtually unanimous" agreement that the president should press for a \$1,500,000,000 non-interest bearing loan program to state and local governments for continuing public works, repayable over a 50-year period in 2 per cent annual installments.

May Release "Sterile" Gold

There was further speculation that the president might tell in line with the ideas of federal reserve board chairman Marriner S. Eccles to release a portion of the treasury's \$1,182,000,000 "sterile" gold fund and thereby ease the impending additional burden on the national debt.

During the past 48 hours, official Washington has been rife with rumors that President Roosevelt and Vice President Garner were at definite odds over the administration's newest approach to the grave business recession. President Roosevelt said such stories were made out of whole cloth. Word persisted from Capitol Hill that Garner felt his chief was making a mistake in trying to print the business pump any more by underwriting widespread public works.

If there is any such division of opinion, overnight developments indicated that Mr. Roosevelt might draw the issue clearly within his own Democratic party in the all-important message that will go to congress at noon tomorrow and be personally explained in a "fireside chat" tomorrow night from 10:30 to 11:15 p. m., E. ment troops bombed and machine-gunned insurgent positions in the Balaguer and Morella sectors.

At Saragosa, insurgent headquarters announced their offensive, led by General Miguel Aranda, toward the Mediterranean sea was resumed this morning. This drive is progressing in the Morella vicinity, south of Catalonia.

Saragosa also reported five separate battles were fought along the Segre river yesterday and claimed 15,000 government troops were "completely broken."

At Salamanca, insurgent authorities declared in a military communique that their Navarrian forces captured 15 villages during a smashing advance up the river valley, leading from northern Aragon province to the Pyrenees mountains in northern Catalonia, along the French frontier.

Insurgent troops in the Ribagorza river valley occupied Aren, south of Vella, key town of Catalan communications with France. It was claimed.

Strong government attacks against the bridgeheads of the Segre river in Balaguer were repulsed with heavy losses, the insurgents claimed, and several hundred government troops were taken prisoner.

The insurgent armies, resuming their drive to the sea, concentrated their greatest force southeast of Morella, where violent fighting between picked forces of each side was reported raging without abatement.

PUBLIC INSPECTS NEW LIBRARY ON TUESDAY NIGHT

to the library by Mrs. E. J. Blanning, representing the local chapter.

Presents Old Times' Pictures
Fred L. Renz, president of the New Castle Old Times association, publicly presented a frame of pictures of citizens who were prominent in the city prior to 1861.

Two of the men whose pictures are in this frame are still living: William T. Birtz and Robert H. Whaley. Mrs. Harry L. Gormley, president of the local Women's club, announced that a memorial is being prepared by the club for presentation to the library, honoring the work of a fellow club member and one who was instrumental in establishing the first library in the city, Mrs. J. B. Griffiths.

President McCoslin remarked, in closing, that the fine work in the building was to be credited to the WPA workmen, who were under the direct supervision of Edward J. Grimes.

Inspect Building
From the close of the program in the main lobby, until 10:30 o'clock, the building was filled with spectators who were viewing the new home. The route laid out for the inspection of the building was as follows:

Starting in the reading and periodical rooms on the first floor, down east stairs to garden center, and the assembly room, from there along the basement corridor to the staff work rooms. Then up the staff private stairway to the first floor again, where the reference room was inspected. The line of march then moved up the west stairway to the children's room, across the ramp to the history room, office, staff room, down east stairway to main floor and then out.

Several displays were arranged about the building for inspection. On the main floor a display case was filled with many lights and lamps telling of the evolution of light. In the history room was a collection of Indian relics arranged by Mrs. F. G. Simonton.

Downstairs in the assembly room was an art exhibit of the work of Everett Hoffman and Wilbur Sloan.

Staff Explains Building

The entire library staff was found in various parts of the building, ready to explain the many features about the building. A great deal of interest was found in the "electric eye" control of the lighting in the reading and periodical rooms.

Out-of-town visitors to the library included: Mrs. Catherine Charles, librarian from Ellwood; Mrs. Elsie Rayle and Fern Medley, librarian and assistant librarian of Beaver Falls; Marian Grosh, librarian at Geneva college; Mildred Ailman, Westminster college librarian; and Mrs. Herbert Beighley, librarian from Zelienople.

Many beautiful floral gifts were presented to the library, and were attractively arranged about the building.

Aiding in the work of displaying the new home to the people was a group of boy scouts from city troops who were supplied by Karl F. Green, local executive.

The new library is in the remodeled former post office building. Visitors last night were amazed at the facilities afforded by the building, and how adequately it had been converted into a library home. It takes its place as one of the finest library structures to be found in any Western Pennsylvania city.

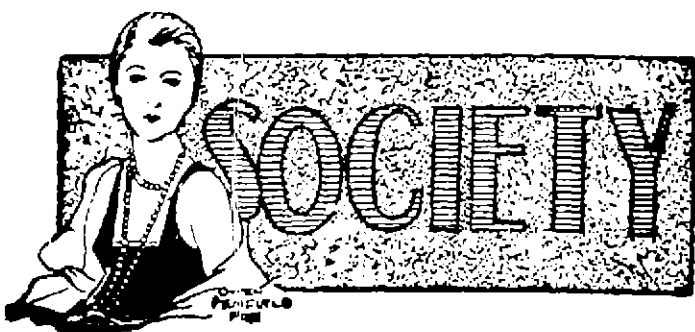

The library is now in permanent service.

HELP STOMACH DIGEST FOOD

Without Laxatives—and You'll Eat Everything from Soup to Nuts
The digestive tract is the most important part of the body. When you eat heavy, greasy, or rich foods, or when you eat too much, your stomach cannot digest them properly. Your stomach sends out the much needed acid to help you digest your food. But if you have a weak stomach, you cannot get the most out of your food. You feel sick, and you lose weight. You need a laxative to help your stomach. It is dangerous and foolish. It takes three hours for the food to travel through the digestive tract. If you have a weak stomach, it takes five or six hours. This makes the stomach full and causes indigestion. To make the stomach digest food properly, follow these steps: 1. Eat only when you are hungry. 2. Eat only when you are relaxed. 3. Eat only when you are in good health. 4. Eat only when you are in good luck. 5. Eat only when you are in good company. 6. Eat only when you are in good mood. 7. Eat only when you are in good luck. 8. MRS. O. E. FLORA IS DEPARTMENT HOSTESS

Mrs. Orville E. Flora was a charming hostess to members of the American Home Department of Women's club, when they gathered Tuesday afternoon, in her Highland avenue home, for their regular session.

The business meeting was held first, with roll call being answered by giving the "name of a prominent person in Pennsylvania." Mrs. L. W. Platt read an appropriate poem entitled, "In Memoriam" honoring the late Mrs. Carl Reed, a beloved and faithful member of the department.

Mrs. M. L. Homung, chairman of the department, introduced the guest speaker of the day, Mrs. W. C. Wallace, whose subject was "The Natural Beauty of Pennsylvania."

The speaker told of the founding and naming of the state by William Penn, in whose honor it was called Pennsylvana, or "Penn's Woods." The woods from which the state derived its name are today one of the outstanding attractions of natural beauty in the state. Many state forest parks have been set aside for public use, and Mrs. Wallace spoke in brief of the more important of these. She also mentioned the many extraordinary caves, and the lovely lakes and rivers in Pennsylvania.

At an appointed hour, the group assembled in the dining room, for tea. Mrs. Harry L. Gormley, president of Woman's club, poured, from a table decorated in green and yellow, with a large bowl of spring flowers, flanked by candles, as centerpieces.

The committee in charge of the meeting included Mrs. Clarence Davis, Mrs. E. G. Diendorf, Mrs. H. E. Grant, Mrs. M. L. Spangler, Mrs. R. W. Brehm, and Mrs. Charles Allen.

BETTER MANAGEMENT

IN Senate debate prior to recent passage of the bill extending Reconstruction Finance Corporation loans to business, Senator Thomas, Oklahoma Democrat, objected on the grounds that this use of governmental credit would increase the national debt, together with interest and tax burdens.

His remarks brought immediate protest from Senator Glass, one of the Senate's grand old men and author of the bill, who insisted it would not increase the federal debt and that the "RFC is the only one of the governmental agencies that has made a profit; it has cleared 159 million dollars."

The explanation is better management of the RFC than any of the other bureaus or departments that might have shown a profit through their depression and recession operations. The finance corporation has been under the direction of Jesse Jones, a successful business man of wide experience, and a director who has shown an intelligent understanding of the problems of credit and of industry. And, while some may doubt the value of more RFC loans in a revival of business and employment, they need have no fears that the lending to be done will not be carried out on a reasonably sound basis.

If the entire Government were being run by men of practical experience and if the theorists had been permitted to continue their theorizing in private, our problems might have been considerably fewer at this juncture.

THEY REFUSE TO BE SHELVED

Chief Justice Charles Evans Hughes, 76 years old, keeps on working hard without pausing for any special birthday message. He thereby confirms anew that his advancing years have not adversely affected his industry or astuteness, and also strengthens the increasingly sponsored premise that men rust out more quickly than they wear out. Justice Brandeis is but five years his senior, and Justice McReynolds is two months older, but Chief Justice Hughes still sets the working pace for the Court.

Governor Wilbur L. Cross of Connecticut, who was 76 yesterday, is also just as efficient, alert, mentally stable as ever. Both he and Chief Justice Hughes are erudite; both are statesmen of high rank; both are reformers; both are busy when some others of their years are in rocking chairs. And both men are not only inspirational in their own right, on their birthdays, but remain a ready answer to skeptics who consider elderliness and obsolescence as synonymous. May they and their like continue as national bulwarks and illustrious examples of unpausing achievement.

FORD MODEL APPEALS

When Clara Bryant at eighteen met a gangling boy named Henry Ford from a nearby Michigan farm she found him "different" from other youths, while he was so impressed that he showed her his prize possession—a watch he had made which told both standard and "sun" time. She properly marveled at its intricacy, and their fate thereby was sealed. They were married just fifty years ago this week.

It is appropriate to note, in connection with this golden wedding anniversary, that Mr. Ford's home and family life have been luminous, and that Mrs. Ford not only has continued for a half century the inspiring trust she showed when he bravely rode in his first horseless carriage, but has won her own place in the hearts of America's women through her enthusiasm for better homes, lovely gardens, field-to-home markets and farm comforts.

Mrs. Ford became 71 on this auspicious anniversary; her husband will be 75 on July 30. They were happy together in lowly circumstances, and now that they have a rajah's wealth at their command they shun ostentation and cling to fundamentals of serene living. They remain a radiant example, as they round out these fifty years, of what love and faith and zeal can achieve in an age when skeptics are too much to the fore.

AN OPPORTUNITY FOR SERVICE

A special grand jury discharged in New York City recently was believed to have established some kind of endurance record. It had been at work for nearly a year.

Its purpose was an investigation of racketeering and its political ramifications. Among the indictments it returned were those against J. Richard (Dixie) Davis and 11 of his alleged associates in the policy racket. In the process of doing this and similar work the members of the jury had held 56 meetings and questioned 180 witnesses.

Governor Lehman, Supreme Court Justice Philip J. McCook, and District Attorney Thomas E. Dewey expressed their deep gratitude to the jurors for their service at the time of the jury's discharge.

Very likely there were scores of New York business men, racket victims, and assorted men-in-the-street who would have liked to thank the jurors themselves.

Without wishing to detract from the deservedly bright reputation of such prosecutors as Dewey in any way, it should be pointed out that the business of fighting crime is not conducted alone by a district attorney. The major share, sometimes the whole measure of the glory more often than not goes to that official, but the success his efforts enjoy is dependent on the co-operation, the conscientious devotion to his task, and the fearlessness of a body of capable citizens behind him.

Service on a grand jury needs to be given the public attention and encouragement it deserves. A certain flattery attaches to being chosen as a juror, but too often the responsibilities that ensue are regarded more as the incidental burdens of citizenship, than as the kind of opportunities that come rarely in one man's lifetime.

The privilege of serving as a grand juror needs to be emphasized as a gift of a special power for improving the community life. The opportunities are extraordinary, and the more John Q. Citizen is made aware of this, the tougher time rackets are going to have in our cities.

The "or else" sign has been taken down in Austria, where the Hitler "election" came off as threatened.

The explanation that the "recession" was brought on by curtailment of public spending will be news to many a taxpayer.

The cure for the "recession" now proposed is so simple—spending billions of borrowed money—why didn't somebody think of this five years ago?

The Parent Problem

By Garry C. Myers, Ph. D.

SPANKING QUESTION REVIEWED

Today I should like to sit down and talk with the mother who likes to think things through. That infant of yours, let us suppose, is merely six months old. Already you and your husband must have talked together about how you are going to be as one in guiding this little tyke to adjust himself to other persons and to this strange, big world around him.

You are eager that he shall develop as a happy lovable person, learn to express himself effectively, learn to create and invent and continue to be eager to learn more. Also you want him to be self-reliant, be physically safe, and be and become a good citizen.

If you have read widely on child rearing, or had courses in child care and training at college the chances are more than even that you have come to the conclusion that you are supposed never to use your hand on the child to discipline him, lest you might unduly repress him, cramp his personality, and hamper his urge to create and express himself.

Perhaps some of your textbooks and professors—even though not founded on scientific facts—told you that physical discipline in the home is a major cause of delinquency and neurosis, of crime and insanity. Taking them at their word, you naturally don't want your child to end up in a penitentiary or insane asylum! And then you may personally know some very bad and unhappy children who have been brutally and continually whipped at home. And if you or your husband grew up in a home of excessive restraint and punishment! You may have resolved never to use bodily pain at all to discipline your child; but to persuade and reason tenderly with him.

Which Did It Harm?
It is your baby, of course. But before making your plans final, it might be well to ask yourself if it is the physical punishment itself that has been harmful in those instances you know about or the conditions, ways and means and the emotional atmosphere in which it occurred. I suggest that you observe those children whose parents have, with great self-discipline, employed selective spanking in the early years, learning to abandon it when the child was four or five. Also consider those children now eight or ten whose parents set out never to spank them. Talk to their neighbors, teachers, Sunday school teachers, Scout and Camp Fire leaders, doctors and dentists, librarians, bus drivers and drug clerks.

We often wonder why a dog quarrel is ordered, when the law of Pennsylvania plainly says all dogs shall not be allowed to leave the premises of their owners.

Business they tell us wasn't just around the corner at all—it was simply making a U-turn and now it's on its way back.

LIFE'S LITTLE AGONIES
A film studio director was trying to persuade a super to wrestle with a lion.

"Oh, you needn't be afraid," he said, "the beast is perfectly tame. He has never tasted raw meat."

"Perhaps not," replied the actor, "but that is no sign he hasn't curiosity."

Proposals to tattoo the letter "H" on the hands of habitual drunkards will necessitate a revision of another old classic:

Father, dear father, come home with me now.
You're starting to see things by twos.
Get back in the house,
Before you're a souze.
And they tattoo the drunk's signs on youse.

Old Hodge, the Sage of Potato Hill, who died some months ago, frequently said that the tongues of his neighbors did more to keep him dead than any other agency he knew. And recently, in Dorothy Brande's "My Inevitable Aunt" I came across a bit of conversation in which an old gentleman out of Maine told his young niece a few truths about gossip.

He said to her, right out:
"You hear so much about gossip, how it's a bad thing. Well, now I want to tell you I'm by no means sure it is. Gossip's what you get going say about you when you get going too strong. Does you a lot of good to know you not to mind what you're doing or hear from others that you've looked like a fool!"

There's something in what that old fellow said, and don't you be thinking differently. It's not the whole story, by any means, because irresponsible gossip can and does do great harm to innocent folk... but there ARE times when it makes us do what we know is best for all of us. And that's not such a bad thing, is it?

TODAY'S STORYETTE
A motorist stopped at a suburban tea house, where he was supplied with some very hard and ancient cakes. He glanced at the menu and then sent out for the manageress.

"I see from your bill of fare," he said mildly, "that your cakes are all home-baked, and that you supply clubs."

"That is so," said the manageress. "Fine!" came the reply. "Would you mind bringing me one?"

There is quite a lot of talk about making government employees and county and city employees pay in-

Styers Again Sentenced To Die, On May 13

(International News Service)

WHEELING, W. Va., April 13.—Raymond Styers was denied a new trial by Judge William B. Casey and re-sentenced to be hanged in the state prison at Moundsville Friday, May 13, for the killing of Mrs. Anna Bris in a holdup.

Styers remained in prison and was not in court when sentence was pronounced again. He had previously been sentenced May 28 last year, but execution of the sentence was delayed by a new trial appeal.

Mrs. Bris was shot and killed when she and her husband started down stairs to investigate the robbery of their taproom. Styers' two pals were given long prison terms.

PENNSYLVANIA APPLS HARRISBURG, April 13.—The increasing demand for Pennsylvania apples is due to the introduction of better grading and inspecting practices in the commercial orchards, according to J. Hansel French, state secretary of agriculture. Select Pennsylvania apples, uniform in size, color and variety and free from blemishes, are now being found on virtually all the markets of the world.

PWA Program Held Stimulant

Government Shifts From
Direct Relief To Increased
Public Works

FAULTS OF DOLE ARE ANALYZED

Central Press
Washington Bureau
602 Times-Herald Bldg.
By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, April 13.—The national administration seems to be shifting from a policy of direct relief to a greatly increased public works program, as an economic stimulant.

Direct relief (alms, in short) cannot be abandoned entirely, but the thought is to pare it down as much as possible, with a view of something more constructive.

The theory is all right. A dolé amounts to outright charity, which is destructive to the morale of its recipients. It is a k. however, for a worker to accept pay for his actual effort, put into a government development; he considers himself no more a dependent than does a congressman or a governor or a mayor, for being on the public payroll.

DIRECT RELIEF QUICKER

Direct relief is a bit quicker in its effect than the other system.

The relief-ees all get their money at once and spend it immediately, putting that much cash into almost instant circulation.

Public projects require considerable preliminary planning, while the workers wait. Moreover, the managers of a public project do not expend all their funds in spot wages. First they must pay for raw material, for the project's employees to work with. True, the raw materials

Most Women Don't Need Beauty Parlors

Sallow complexions and pimply skins are often not a matter for cosmetics. For most skin blemishes are aggravated by constipation.

Constipation can be a serious handicap. Mental dullness, early fatigue, headaches, sleeplessness, mental depression, loss of appetite, hyper-acidity can all be caused by it.

Keep regular. If more than a day goes by, use Dr. Edwards' Olive Tablets. This famous laxative is the choice of millions. It does not shock the intestinal system. And in addition, it stimulates the secretion of bile without the discomfort of drastic or irritating drugs. Get Dr. Edwards' Olive Tablets at your druggist, 15¢, 30¢ and 60¢.

NEEDLES, NAILS MADE OF GOLD

Sewing needles and nail heads were often made of gold, by prehistoric South American Indian tribes.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bleats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Here's the recipe, get amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25¢. Subornly refuse anything else.

producers are benefited; the thing even up in the long run. Nevertheless, the method is slightly more indirect than direct relief.

"DOLE" HAS MANY FAULTS

Direct relief's faults are:
1. The relief-ees are pauperized; to have been on relief brings terrible humiliation forever thereafter to some.

2. There shortly is nothing to show for it.
Public works, once created, are an asset. If private capital erects, for example, a profitable office building, its community is richer for it—not out of pocket for the money that went into it. Or if a community puts in a municipal waterworks that community counts itself wealthier.

But what a county spends on its paupers—that's over the dam.

LET UNCLE SAM DO IT!

So it appears that governmental enterprises (whether federal, state-wide, municipal or otherwise local) should be what are known as self-liquidating.

But the minute that they become self-liquidating, private capital wants to attend to them. Let a proposition show signs of inability to pay and private capital is willing enough to abandon it to Uncle Sam. Illustratively, flying fields are unremunerative. They're numerous needed. But no locality is disposed to foot the bill for one—it's Uncle Samuel's business to do it.

CONTROL WELCOMED?

The railroads are almost showing signs of a willingness to accept governmentalization.

Electrical power openly admits that it is prepared to do so—on its own financial terms.

LETTERS TO THE NEWS

Letters intended for this column must be signed with name and address of writer.

Volant, Pa., R. D. No. 2.
April 11, 1938.

Editor of The News,
Dear Sir:

Recently we read in two of our papers, the (National Voice) and the (Union Signal), that approximately one-fourth of the daily newspapers in the U. S. refuse whiskey and gin advertising, thus turning their backs on a share in \$55,000,000 which hard liquor interest have spent for advertising since repeal. In this same article was a list of 176 papers, which carried no advertising of alcoholic beverages, 81 of these being in Pennsylvania and one of them being "New Castle News".

Thus you see you are not alone in your stand and this is known to others than your subscribers. We appreciate the fact that when reading "The News" no alcoholic advertisement is there to claim our attention, and when we spread old copies of "The News" here and there about the house, none of these advertisements is turned to us.

In an attempt to express our appreciation, we passed this resolution at a recent meeting of the Planning W. C. T. U. to write to you and let you know how we appreciate your stand.

Yours truly,
MRS. BERTHA SHOAFF,
"Cor.-Sec."

The Easter services will continue as planned, although it is not likely that the rector will be in the pulpit. Communication is being made with the bishop in an effort to secure a guest minister for the occasion.

Allocate Insurance On City School Buildings

Insurance upon the school buildings of the New Castle public school system was allocated Tuesday night April 12 when the school board met in the administration building on East street. The board had previously met twice in the matter, once in formal session when the insurance agents were heard as to the readjusting of amounts to various agents, and again in executive session when the method of allocating the insurance was discussed.

This year the insurance is being placed for varying periods of time. Some of it is being placed for four years, some for three and some for two years. This means that in the future expirations will come about one third each year and the amount of premiums will be lessened, but paid each year instead of every three years. The total insurance is \$2,879,500.

The total amount placed for four years is \$960,000, the amount placed for three years is \$959,500 and for two years \$960,000. The total premium is \$10,251.02. The allocation is as follows:

On Court House Hill

REALTY TRANSFERS

John C. McMurray to Charles L. McMurray, Scott township, \$1.
John A. Young to R. Harold Boak, Hickory township, \$1.

Following the custom of other years the court house will be closed on Good Friday, the county commissioners announced today. The custom started some years ago for the reason that the day is a legal holiday. The fact that it is also the first day of trout fishing doesn't hurt a bit either.

To those voters who have not yet registered, Chief Clerk of the Registration Bureau Thomas C. Edmunds addresses a last plea. Saturday, April 16 is the last day to register to vote on May 17th. In order to accommodate voters who are busy during the hours the court house is opened, the office will remain open until nine P. M. Thursday, April 14. Good Friday, the office is closed and on Saturday, THE LAST DAY, the office will be open until six o'clock. If you haven't registered, you had better do so before Saturday night at six o'clock.

On Monday of this week Commissioners Floyd L. Cotton, George H. Bollinger and A. R. Turner paid their annually required visit to the state hospital at Pottsville. This year they made a thorough inspection of the institution and were impressed with the thoroughness with which things are done there.

The dairy barns in particular appealed to them. There are over 300 head of fine cattle there. All Holsteins and in one barn there are 88 cows that are all half sisters. During their trip they stopped at

a hospital in Grove City to see a Lawrence county man who is confined there and who may become a charge upon the county.

One of the residents of the county home has wandered away according to Welfare Officer Edwin O. Reed. The gentleman, Miles Stufflebeam is a man about 63, slightly lame and may be wandering around the county. Persons having any information concerning him are asked to get in touch with Mr. Reed.

Judge Lee McCracken of Venango county is holding court today in the Lawrence county court house. He is trying a case in which both of the local judges were interested before they were elected to the bench.

"A dog gets his first bite." It isn't good law but it rises to nearly a legal axiom. A case in court this week was non-suited through the application of this old axiom. Before a dog can be proven vicious it must be proved that he had bitten some one else prior to the case which is at trial. Recently in an Allegheny county court one of the judges handed down the axiom as a part of his ruling. "A dog is entitled to his first bite."

Red Cross Chapter Gets Certificate

Receive Honor Roll Recognition For Recent Roll Call Achievement

Just prior to Admiral Grayson's last illness he signed a number of Roll Call Certificates for distinguished Roll Call achievement. It was one of Admiral Grayson's firmest beliefs that the strength of the Red Cross was dependent upon a widespread interested membership, and under his leadership an impressive number of million and a half members were enrolled by our chapters throughout the country.

The Lawrence County Chapter has been awarded the Roll Call honor certificate for the 21st Roll Call. As Admiral Grayson was beloved by all Red Cross chapters and workers, it is with a great deal of feeling that the local chapter hangs this certificate in their office.

Jury Disagrees; Out For 22 Hours

After deliberating for twenty two hours, the jury trying the case of Palkovich against the Universal Sales Company reported to Judge Thomas W. Dickey at nine this morning that an agreement could not be reached. The jury was discharged.

The case was one in which the plaintiff claimed damages for injuries to his small son by a car owned by the defendant. The case went to the jury at eleven o'clock Tuesday morning in custody of Tipstaff W. J. Chain. They had lunch, they had dinner and after an all night vigil they had breakfast this morning.

It was a hard grind for the jury and for Mr. Chain but the juryman felt it was useless to deliberate any further.

Card Of Thanks

I wish to thank my friends, neighbors and relatives for kindness and sympathy extended me during my recent bereavement; also for floral tributes and cars donated.

Gauges Aid In Flood Forecasts

Stream Flow Measuring Devices
Are Placed In Streams Of
District

Two hundred and sixty-five stream gauges, many of which have been installed in the past year, have been set up in rivers and streams of Pennsylvania, as well as neighboring states as a part of the state-wide flood forecasting system.

These gauges have been established cooperatively by the State Department of Forests and Waters, the U. S. Geological Survey, and the U. S. Weather Bureau.

In the Beaver river basin, gauges have been located at the following points: Beaver river at Wampum; Pymatuning reservoir at Pymatuning Dam; Shenango river at Pymatuning Dam; Sharpville and Sharon; Sugar Run at Pymatuning Dam; Little Shenango river at Greenville; Pymatuning Creek near Orangeville; Connoquessing Creek at Hazen; and Slippery Rock Creek at Wurttemberg.

A good interest is sustained in the Passion Week services being held at the First Baptist church. Last night the pastor spoke on "The Wisdom of the Lord Jesus" and the senior choir furnished the special music. Tonight Rev. H. G. Woodrow will be the speaker and the young people's choir will sing. Thursday night will be devoted to the communion service.

Six Hundred Students Move College Library Books In Four Hours

(Special To The News)
NEW WILMINGTON, April 13.—This will explain how easily the pyramids of Egypt were built.

Six hundred Westminster students and faculty in four hours this week moved 17,000 books a block from the old library into the new \$150,000 McGill Memorial Library Building. Total hours used in moving the books are equivalent to one man's working 242 eight-hour days. Earning a minimum of 30 cents an hour, a single man carrying books would have earned \$509.60; but loyal stu-

dents and faculty moved the books free of charge. Total number of steps taken in the moving was approximately 1,277,760 on level ground, and 462,000 up and down steps, from the third floor of the Science Building, where the old library was located. First book into the library was the world's most-read book, a Bible, carried by President R. F. Galbreath. The college's new building unit, according to Miss Mildred Altman, librarian, will be open for student use following the Easter holidays.

I ENJOY EVERY MEAL SINCE VENDOL RELIEVED MY STOMACH

Tells how two bottles of this famous Root, Herb and Alkaline medicine relieved constipation, gastritis, palpitation, cramps and other troubles.

"My stomach had given a lot of trouble for some time and I'd tried various remedies, but none helped me. However, two bottles of Vendol have really amazed me with the speed at which I got relief," declared Mrs. S. M. Brandhorst, who is well known to everyone in her neighborhood.

"I had lost my appetite, the little food I did eat digested poorly, turned to sour gas that made me quite uncomfortable. 'Croakers' Take Count As Lions Speaker Lauds Depression-Born Ideas

Old Man Gloom and his creaking cohorts were served a generous dish of the huckleberries when Ray Thompson, Youngstown advertising man, addressed the Lions club yesterday on "Depression, the Mother of New Ideas."

Had you heard the talk, you too would have called it huckleberries—for the message, developed out of a healthy curiosity on Mr. Thompson's part, made you feel that America's most promising and brightest days lie ahead.

Mr. Thompson, introduced by Earl T. Ramsey, spoke of the well-known "croakers" who "know we're coming straight to the dogs" and told of the "highers" those pluggers to whom "I'm dedicating this talk."

Politics, government, pessimism and everything else got a back seat

while the speaker recalled, one after another, the new articles, new products, new equipment—new ideas all that were born during the recent economic dark days.

Mr. Thompson listed scores of new ideas, among them: midge radios for homes, silent second gears in autos, cans for beer and other things, marble boards and special railroad excursion tours (snow specials, etc.) for the public.

"All of these ideas were born in depression days," he reminded the club. At first some were ridiculed, but they paid profits in the end.

President was President R. Loy Boyd. A guest at the luncheon was C. J. Boerger, Pittsburgh.

Mr. Thompson, the speaker, is associated with the Thompson Advertising company in Youngstown.

Boy Scouts Plan Hike For Thursday

Mahoningtown Troop Will Enjoy All-Day Adventure In Out-Of-Doors

An all-day hiking event has been planned for Thursday by the Boy Scouts of Mahoningtown Troop 4. The group planning to go, according to Assistant Scoutmaster Wilfred Paul, will meet at the Mahoning Methodist church at 9 o'clock Thursday morning.

Each boy will carry enough food for two meals and after arriving at the selected camping site, the scouts will each cook their own meal.

Members of both the Mohawk and Explorer Patrols of the troop will join with the other scouts in this event. According to Assistant Paul, this hike is now solely for scouts, but is open to any person who cares to spend the day in the woods.

Merchants Decorate For Easter Season

Many Clever And Attractive Displays Are Seen In Ward Store Windows

Ingenuity is the keynote in the decorations being placed in many of the ward store windows to herald the coming of Easter.

Clever indeed are some of the window displays which are attracting considerable attention from passersby along North Liberty street. In one window a live chicken attracts attention as it struts about in a cage below a clever home inhabited by Mr. and Mrs. Bunny Rabbit and all their family.

Flowers, eggs and other Easter trimmings are in other windows in clever arrangement.

(Continued From Page Four)

cient operation. It is a noticeable thing that the moment a road goes into receivership, the court in charge instructs the receivers to spend large sums on rehabilitation.

REORGANIZATION DIFFICULT

Simplification of the bankruptcy law as it applies to railroads also is up. Reorganization under 77-B has been virtually impossible so far. One-third of the security holders can prevent any plan from going through.

"Simplification" in this instance may mean ruthless elimination. That would affect large institutions, such as insurance companies, as well as small holders.

The large institutions would not suffer so much as the small holders. Large institutions hold bonds of sound properties as well as unsound properties. The securities of the sound properties would be enhanced by the elimination of unsound properties.

Actually, the sound rail companies have a bright future if the rotten branches are cut away.

HOLDING COMPANIES

Any railroad reform would be useless as long as holding companies, superimposed on one another, can deal in railroads as if they were chips at a gambling table. Thus, future legislation is certain to doom the railroad holding company.

The present battle for control of the Van Sweringen roads, in which the Van Sweringens held control of two billion dollars' worth of property through putting up a few million dollars to seize control of holding companies, is an example.

Security holders in the Chesapeake & Ohio railroad, for example, were at the mercy of the Van Sweringens when, with very little cash of their own, they gained control of this valuable property and milked it in order to build up a pyramid of investments in weak properties. The Van Sweringens are dead. The properties have changed hands twice since then, through the payment of a pittance by speculators—and only the security holders lost in the meantime.

Money that should have been plowed back into the property (as well kept as it is) has gone into all sorts of schemes, ranging from a model farm to a department store, and an organization to agitate against investigation of holding companies.

TOO MUCH TO LAWYERS

The senate interstate commerce committee investigation of railroad financing also has brought out that lawyers have been getting tremendous sums in railroad reorganizations.

Ironically, the worst case cited was one in which the first reorganization did go through, and the railroad had to go through bankruptcy a second time, with additional millions for legal fees. At the same time, the railroad was losing thousands of dollars a month because it could not afford to buy new motive power, which would eat up less fuel.

GRANGER ROADS

The granger roads may expect a fairly good summer. Moisture has been plentiful. Winter wheat is near a record. Other crops may come up well. Good crops mean not only good crop movements, but a return of merchandise and equipment into farm areas, two-way traffic that is highly profitable.

Coal, ore and steel roads will be worse off than last year, from present indications.

The outlook thus is better for some of the western and southwestern railroads than for those in industrial and coal regions—unless business develops suddenly this summer. All roads are geared for better net earnings if business should improve.

In the meantime, however, railroads are discussing another petition to increase rates—an "emergency" increase—and an effort to reduce basic wages.

A SOLUTION

Also in the meantime, recommendations of the special interstate commerce commission group advising the president, were receiving considerable attention in Wall Street.

These recommendations included a government guarantee of bonds issued as a result of voluntary rail reorganizations, government loans for equipment and other purposes, elimination of reduced rates on government traffic on land grant roads and establishment of a federal court to have jurisdiction over all receiverships.

The government loan feature probably is dead already, as indicated in the fore part of this article, and Wall Street opposes government guarantee of bonds as "putting the government into control of the railroad business." That is, many of the roads would be mortgaged completely to Uncle Sam.

But low trucking rates save money for nobody if the truckers go broke. Every loss is finally added to the consumer's bill.

Banner Attendance Is Planned Sunday

"Diamond Jubilee" Campaign For Memberships Will Close On Easter

Next Sunday, Easter, April 17 will be "Every One Out," "Banner Attendance" Sunday in the "Diamond Jubilee" campaign being sponsored by the Lawrence County Sabbath School Association. It is anticipated that the campaign will close with a shower of diamonds, and the winners in the various groups will not be known until the reports are in from all of the 35 participating Sunday schools as some are being very closely contested.

April 19 at 7:30 p.m. the "Diamond Jubilee" Bible study course will start at the First Baptist church, New Castle, and the classes will convene on Tuesdays and Thursdays to and including Tuesday, May 3. The instructors will be Rev. G. S. Bennett, Rev. A. M. Stevenson, Rev. W. V. McLean, Rev. D. L. Ferguson, Rev. A. M. Stump and Rev. C. H. Heaton.

The church attendance contest between the four U. P. churches of New Castle, the First, Second and Third and the Highland U. P., is proving very successful. The highest percentage of attendance registered to date has been 92% of the Sunday school members remaining for the church service at the First U. P. Their plan is as follows: They have printed cards which read "First United Presbyterian Sunday school, Church attendance contest card in connection with the Diamond Jubilee Campaign. This card to be given to usher on entering church."

The second highest church attendance percentage was registered by the Second U. P. with a percentage of 88½% last Sunday.

old-age pension plan. In a letter sent to all Townsend clubs in the State, published in the Tampa "Tribune" and other papers, Senator Pepper declared himself for this scheme—pledged himself to work, support and vote for it at every opportunity," begged the Townsend supporters for their votes.

THIS is really an extraordinary performance. In Florida it is regarded as a sign of desperation upon the part of Senator Pepper—a realization that something more than the Roosevelt endorsement is needed to pull him through; that acquiescence in every White House wish has ceased to be an asset and become a liability. Since the defeat of the reorganization bill this is more apparent than before. In any event, the conviction of those best posted is that in the forthcoming primaries no candidate will receive a majority, and this means a run-off primary between the two top men. If Senator Pepper is one of these and, as is believed most probable, Mr. Wilcox the other, the Pepper advantage of a split opposition will disappear and the struggle between a Democrat who votes independently of Mr. Roosevelt and one who votes subsequently will be simplified. It ought also to be mentioned that in 1936 Mr. Wilcox came out publicly against the Townsend plan and was reelected to the House by an increased majority.

OF COURSE, Senator Pepper's Townsend endorsement has opened him pretty wide to attack. It is asked, for instance, how can he be willing to "follow to the grave" both Mr. Roosevelt and Dr. Townsend. The Doctor is on record as regarding the New Deal policies of Mr. Roosevelt as "economically unsound," while Mr. Roosevelt is well known to regard the Townsend plan as "economically unsound"—and they are both right, Dr. Townsend, in 1936, strongly opposed Mr. Roosevelt's reelection, and is now appealing to the Supreme Court to save him from the sentence incurred because he was "in contempt" of a committee controlled by Mr. Roosevelt's friends. Of course, it puts Mr. Pepper in a ridiculous and indefensible position. It makes his White House endorsement as a "sound man" seem silly. However, if by plumping for their pet pro-Roosevelt-Townsenders, the line with the one hundred per cent, he might get away with it. And that, of course, is the basic idea.

War Admiral And Seabiscuit Will Positively Race

"Off Again On Again"
Horse Race Of Century
Set For May 30

ALL ARRANGEMENTS HAVE BEEN MADE

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 13.—They gave it the old Finnegan yesterday and called the \$100,000 horse race between War Admiral and Seabiscuit "on again," this time for May 30 at Belmont park. Instead of late September. And this time it apparently is going to stay on.

Samuel D. Riddle, owner of the Admiral accepted the altered conditions as soon as the Westchester Racing association's directors unanimously voted in a new set of terms yesterday. Late last night the Biscuit's proprietor, C. E. Howard, confirmed the arrangement, according to the statement of Racing Commissioner Herbert Bayard Swope, in a telephone conversation from California.

Date May 30.

The new terms, exacted by the association as the instrument under which it proposed to set aside the purse—which some of the directors didn't want to do—were as follows:

The date, May 30, or the following day, if racing conditions are such as not to provide a fair test. (The Biscuit needs a dry track.)

The distance, one and one-quarter miles. The field, War Admiral, Seabiscuit and a third entry, in order to circumvent local regulations. The weights, 126 pounds.

The third entry, conceivably, could be Stagehand, provided the colt wins the Kentucky Derby next month. Nothing was said about Stagehand yesterday and it seems almost inconceivable that anything over will. As a three-year-old, his scale weight would be only 108 pounds in May, whereas the scale calls for the other two to do 127 that month.

Members of the Lawrence County Sportsmen's association met in the county building last night, installed officers for the coming year, named committees for the association's banquet in the Cathedral, May 7, and also named a committee to study the proposed revision of the by-laws of the organization.

The officers installed were: president, James Cypher; vice president, William Wetz; treasurer, Allen Cartwright; secretary, William H. Rogers; and directors, W. Henry Rogers, J. W. Miller, Sheriff M. M. Ingham and Lou McClung.

Reports of the entertainment, display and dinner committees were received.

Messrs. Castillo, Bollinger, Diamond and Boyles were named as a committee to study the proposed revision of the by-laws.

President Cypher displayed the trophy he won when he shot a bear near the Tin City camp last winter.

A fishing rod, reel and creel will be offered as prizes for the members securing the most members before noon, May 7.

The organization voted to give their support to Fish Warden Clint White, named recently.

It is planned by the organization to increase their membership to at least 1,000 by the time they gather around the banquet table at the Cathedral, May 7, when Fish Commissioner Ross Loeffler will be the principal spokesman.

Mike Blazek of Conneaut, O., followed a perfect game in the American Bowling Congress yesterday at Chicago. He became the fifth man in the 33-year history of the congress to pitch 12 consecutive strikes straight down the drives. He bowled 610 Monday with the Rammer team. He completed his doubles yesterday with 614. His first singles games produced only scores of 171 and 145. His last game set the Conneaut bowler apart from the thousands who had preceded him in the six-week-old tournament. Four times previously he has reached perfect figures, one on occasion he cleaned the drives 24 times in a row for two perfect games. But, on new A. B. C. alleys under tournament conditions a 300 score is more difficult to achieve. His two mediocre games pulled him down to a 616 total in the singles and 1840 in the combined standings.

Shippery Rock Teachers have arranged six track meets as follows: April 30, vs. Geneva at Beaver Falls; May 4, vs. Lock Haven at Lock Haven; May 11, vs. Pitt B at Shippery Rock; May 14, state meet at Shippery Rock; May 17, vs. Waynesburg at Shippery Rock; and May 21 vs. Grove City at Shippery Rock.

Stagehand got hit on the nose with a hammer at Louisville yesterday. While a carpenter was making repairs at the stable the big bay colt, winner of the Santa Anita and who will run in the Kentucky Derby, stuck his valuable snout around a board wall just the carpenter swung. Excepting for his prize Stagehand was not hurt.

Penn State's baseball team will open its schedule against Penn at Philadelphia today. Simoncelli and Watts are the only two of the seven hurlers in shape. Nittany Lions report... Altoona's automobile race will be held June 11. The track will be changed from a flat to a banked bowl... Westchester Racing association yesterday posted a \$100,000 purse for a match race between War Admiral and Seabiscuit at Belmont park, Memorial Day... Billy Conn and Eric Seitz will fight 10 rounds at Pittsburgh on April 25.

J. Gilbert Hall of New York, defending champion, had little difficulty in a third round match yesterday at Pinehurst, N. C., winning from David Early, University of North Carolina, 6-1, 6-1.

TALES IN TIDBITS

By BILL BRAUCHER
Central Press Sports Editor

NEW YORK, April 13.—Perhaps this is premature, but a man has to get up very early to score a scoop nowadays, so here goes: Michigan is going to do all right under Fritz Crisler, and may even be in the running for the Big Ten football championship this year.

This belief isn't based so much on any remarkable changes in coaching and administration wrought by the former Princeton character builder as it is on the prevalence of good material, especially halfbacks, at Ann Arbor. Crisler is fortunate in that he went to Michigan with the football pendulum on the upswing after Harry Kipke had borne the brunt of lean years. Crisler was equally lucky when he came to Princeton from Minnesota.

Had Kipke been given one more year at Michigan he would have enjoyed the renaissance and, I believe, would have just as much success with the new talent as Crisler will have. We're taking for granted that there is a much better football squad in the making than has been squandered for several years. Everything points that way.

However, this rambling essay must not be construed as an attempt to belittle Crisler. We're just saying that he's lucky to find football affairs in pretty good shape and looking up. Two years ago he would have faced a different problem.

Some eighty men answered the call for spring practice. That's a good response numerically, but the important angle is that there are veterans for every position in the line and for the first time in several seasons (since some people who look like quarterbacks).

Tom Harmon is a potential star, one of the highest prospects to appear at Ann Arbor in many years. You remember Tom, of course, he's the boy from Gary who was offered a lot of inducements by a prominent southern university last year. Fear Crisler, and may even be in the running for the Big Ten football championship this year.

Harmon promises to become one of the fastest backs in the Big Ten. He can get up full speed on a dime, and is an elusive runner. Earl Martineau expects great things of the youngster.

The outlook for quarterback is brightened by the presence of Dave Strong, former University of Illinois signal caller, and Jack Meyer, who was a star at Keki. Both are triple threats and fine blockers. There are two good fullbacks also—Christy and Mahafley—among the newcomers.

Crisler has excellent assistants in Martineau, Campbell, Dickson, Clarence Munn, Wally Weber and Cliff Keen. Fritz runs a football practice a bit like Mussolini directing maneuvers. He picks a high spot on the field where he can watch all that's going on. When he toots the whistle, coaches and players gather around for instructions. He has plenty of suggestions. And knows how to pass out the work to his staff so there can be no misunderstanding of what he wants.

Michigan already is impressed with the new coach's intelligent efficiency. Some of his western friends in the so-called newspaper fraternity think he might be a bit less intrusive and more friendly with the press (including photographers), but a coach just can't have everybody in his lap. They'll get used to him.

Fishing Season At Pymatuning To Start July First

Special Season Planned Under Agreement Between Ohio And Pennsylvania

HARRISBURG, April 13.—Pymatuning dam in northwestern Pennsylvania will be opened to fishing on July 1. Commissioner of Fisheries C. A. French announced today. This special season has been set for the big lake, Commissioner French explained, under a joint agreement between Ohio and Pennsylvania. The lake extends into both states and is stocked by each.

Set Opening Date For Spring Creek Fishing Paradise

Fish Commission's Project Near Bellevue To Be Open May 10

HARRISBURG, April 13.—The Fish Commission's famous Spring Creek Project, better known as "Fishing Paradise" located on Spring Creek about four miles above Bellevue, Conner county, will be opened for fishing this year on May 10. Commissioner of Fisheries C. A. French announced today. The project will close on July 9.

Noted for the giant trout frequenting its improved stretches of fishing water, Spring Creek this year holds promise of thrills aplenty with the additional likelihood of considerable brook trout, as brown and rainbow trout up to 2 pounds in weight are now to be observed in its pools.

Opening time on May 10 and every day thereafter excepting Sundays, during the special season will be 4 o'clock in the morning. Standard time, and closing time 8 P. M., S. T. The daily limit permitted a fisherman will be two trout, each over 10 inches in length, in the men's section; 10 may be caught, 2 of which must be returned to the water.

Only artificial flies with barbless hooks may be used and no spinners are permitted. In fishing barbless hooks, regular hooks with the barbs bent down will be permitted.

In the section reserved for ladies, trout over 7 inches in length may be retained; the same daily creel limit of 2 applies as well as the 10-day catch limit.

All anglers holding a Pennsylvania Fishing License will be permitted to fish five days in the Project. It was stressed that individuals fishing with or having in possession any live bait, meat, liver or other bait while in the Project would be violating the rules. No wading in the stream for any purpose whatever will be permitted.

CYCLONES TO PLAY
The Cyclones will play the fast All-American team on Thursday afternoon at the Cyclone field. It was announced by Manager Eddie Ostromsky. Cowden, a newspaper, will do the pitching for the "Cyclones." The team will play any team in New Castle in their class.

City Softball League To Meet

This evening at 8 o'clock, in the Y. M. C. A. City Softball League officials will hold an important meeting. It was announced today.

EAST BROOK A. A.
East Brook A. A. will meet in the home of Frank Waddington Thursday evening at 7:30 o'clock to complete plans for a banquet.

CHICAGO, April 13.—When this is written to the 36th annual American Bowling Congress championships next Tuesday afternoon, the current pin classic will go down on the records as the highest in general scoring on record.

Sixteen teams have now passed the 3,000 mark and 46 lineups have beaten the 2,000 figure. Eleven teams bettered the "three grand" figure at New York last year and with more top-notch teams still scheduled, the present record will climb.

The fifth 300 score in A. B. C. history was hung up in the singles division yesterday when Mike Blazek, Conneaut, O., crashed through with 27 consecutive strikes in his singles competition. Blazek opened his solo event with games of only 171 and 174 and then hit his perfect mark.

Though 1,800,000 games have been rolled in the annual A. B. C. classics, the previous quartet of perfect games were made by Billy Knox, Philadelphia; Charlie Reindle, Racine, Wis.; Jack Karstens, a private from Fort Sheridan, Ill.; and Carl Mensenberg, Scranton, Pa. Blazek's the second in the solo division.

Mental Clinic Of State Hospital To Examine Cases Only

No Treatment Is Given, Dr.
Theodore Wollack, Head
Of Clinic, States

The full purpose of the mental health clinic which has been established in the rooms of the Lawrence County Chapter, American Red Cross, is stated by Dr. Theodore Wollack, of the Torrance State hospital, which conducts the clinic.

The clinic will examine cases of suspected psychosis, suspected mental deficiency, and acute behavior disorders. The examinations will be by appointments which will be made by Miss Margaret F. Bodenstein, executive secretary, American Red Cross, 17 1/2 South Mercer street.

The clinic is held only for the purpose of making diagnoses and giving advice. There is no actual treatment given at the clinic. When contributing physical disorders are found they will be referred to local physicians. Programs of treatment for behavior disorders, school problems, and mental aberrations will be suggested for each individual case.

In addition to examining new cases the personnel from Torrance will also request people who are on parole from their hospital to come to the clinic for interviews. This will be done by appointment, not through the Red Cross, but directly with the Social Service Department of the hospital.

AROUND CITY HALL

Should the federal government in the future permit long term loans of money without interest indications are the city fathers will ask for sufficient money to construct a new city building. It is likely that the ground occupied by the old library would be utilized and the present building sold or rented.

Use of city hall was at a premium yesterday. Three state bodies conducted hearings and the Lawrence County Sportsmen's association installed officers last night. City officials also found a way whereby ex-Governor Pitcher and his party were given speaking time at noon.
